WEST HARTFORD (7)

CONNECTICUT

New Flowers

MARIGOLD NAUGHTY MARIETTA A beautiful new compact marigold, growing only 1' high and covered with 2½" golden yellow single flowers. There is a bold mahogany blotch at the base of each petal. A gay new arrival for '47 gardens. **pkt 25¢**

PETUNIA MRS. DWIGHT D. EISENHOWER An exquisite double flower, almost 3" across, soft salmon pink veined with deeper salmon shades. This grand new petunia grows about 16" high and will spread over 2' across. **100 seeds for \$2.00**

TETRA SNAPDRAGON A vigorous new race of snapdragon developed with the aid of colchicine. Monster flower spikes in the wonderfully extensive range of snapdragon colors on giant plants 2½ ft. tall. **pkt. 25¢**

SNAPDRAGON VELVET GIANT A monster Tetra snapdragon of deep velvety crimson with an undertone of orange bronze. **pkt 25¢**

PHLOX TETRA RED Try the new tetraploid annual phlox! 20" tall, this larger flowered phlox has heavy trusses of deep red florets. Grand as a cut flower or in the annual border. **pkt 25¢**

PETUNIA ALL DOUBLE COLOSSAL SHADES OF ROSE Monster 4½-inch double blooms, shell pink thru lavender rose, on vigorous 18-inch plants. A rare new American beauty. **Packet (100 seeds) \$1.00**

Newer Vegetables

BUSH LIMA BEAN FORDHOOK SPECIAL This strain (U.S.D.A. 242) is almost sure to replace the older variety. A vigorous grower, it has the same high quality of Fordhook but will out-yield it, especially under adverse drought conditions. **pkt 15¢, ½ lb. 35¢, 1 lb. 65¢**

HYBRID SWEET CORN WILSON The champion of the late hybrids, this new corn has a large full ear of superb quality. 90 days to maturity. **pkt 15¢, ½ lb. 35¢, 1 lb. 65¢**

LETTUCE BRONZE BEAUTY An Oak Leaf type with beautifully bronzed tender leaves of a butter-like flavor. Amazingly resistant to hot weather. **pkt. 25¢**

TOMATO BURPEE HYBRID 70 days. An early mid-season hybrid, outstanding for the quality and rich flavor of its fruits which are medium to large, firm, and thick walled. They average 8 oz. in weight, are a bright scarlet red. The flesh is meaty and so rich in flavor that most other varieties seem flat in comparison. **30 seeds, 35¢**

CUCUMBER BURPEE'S HYBRID A true hybrid with true hybrid vigor. Prolific, disease-resistant; a crisp and delicious cucumber. **30 seeds, 25¢**

PURPLE CAULIFLOWER It really is purple but cooks to a light green. Superior flavor. Try it! **Pkt. 25¢**

TOMATO CLINTON HYBRID The vigorous plants of this new main crop hybrid carry quantities of large deep red fruits of excellent flavor. **30 seeds 35¢**

BUSH BEANS 1 pkt plants 15', 1 lb. — 100'. Plant 2 inches deep, rows 2½' apart. For succession, plant every 2 weeks from May thru July.

GREEN BUSH VARIETIES

Connecticut Sealed Grass Seed for Finest Lawns

We carry Connecticut Sealed grass mixtures exclusively. They are approved by the Connecticut State Department of Agriculture for varieties of grasses, purity, and germination. Our mixtures exceed the standards by containing a larger percentage and a greater variety of high priced, fine leaved grasses.

For quick vigorous growth (new seeding) sow 1 lb. of grass seed to 200 square feet. For reseeding old lawns, 1 lb. to 400 sq. ft.

GOLD SEAL	—	for a superb velvety turf. Highest quality seed.			
		1 lb. \$1.15	5 lb. \$5.50	25 lb. \$26.25	100 lb. \$105.00
BLUE SEAL	—	best for general use — a dark green permanent lawn.			
		1 lb. \$.95	5 lb. \$4.50	25 lb. \$21.25	100 lb. \$ 85.00
RED SEAL	—	a quick growing, moderately priced grass.			
		1 lb. \$.80	5 lb. \$3.75	25 lb. \$17.50	100 lb. \$ 70.00

for Shady Places —

GOLD SEAL SHADY Comparable in quality to the regular Gold Seal, this seed makes an exceptionally fine leaved lawn and will grow in moderate shade.

1 lb.	\$1.15	5 lb. \$5.50	25 lb. \$26.25	100 lb. \$105.00
-------	--------	--------------	----------------	------------------

BLUE SEAL SHADY

This grass is shade tolerant and will grow equally well on dry but sunny lawns — a tough grass.

1 lb.	\$.95	5 lb. \$4.50	25 lb. \$21.25	100 lb. \$ 85.00
-------	-------	--------------	----------------	------------------

We carry the following selected grasses that are used in our lawn mixtures and we can offer them separately at the prevailing market price:

ASTORIA BENT (*Agrostis canina tenuis*.) The grass used in putting greens and the most practical bent grass to use in lawn mixtures. It makes a firm, durable turf.

CHEWINGS FESCUE (*Festuca rubra var. fallax*) Its needle-thin, dark green leaves make a handsome lawn. It will tolerate shade and thrive on dry soils, and is best used in mixture with other grasses.

KENTUCKY BLUEGRASS (*Poa pratensis*) Best of the truly permanent lawn grasses, it is fine textured and deep emerald green. Rather slow to become established, it is the basic seed for lasting lawns.

RED TOP (*Agrostis alba valgaris*) A fine grass, relatively short lived (under lawn conditions), excellent as a nurse crop mixed with the slower developing perennial grasses.

RYE GRASS DOMESTIC (*Lolium italicum*) Good for a quick cover crop. Excellent to hold banks while the hardy grasses become established.

WHITE DUTCH CLOVER (*Trifolium repens*) Low growing and creeping, clover stays a good green throughout the season.

WILD WHITE CLOVER (*Trifolium Repens Var.*) This clover may eventually supersede White Dutch. It is more persistent and will stand extremely close cropping. It blossoms less than ordinary white clover. A grand aid in combatting crabgrass. One quarter pound is sufficient to mix with 5 lbs. grass seed.
